2026 9th International Conference on Functional Materials for Circular Economy

Organized by **Akdeniz University** and **Tokat Gaziosmanpaşa University**, 2026 9th International Conference on Functional Materials for Circular Economy (ICFMCE 2026) will be held in **Antalya, Türkiye** from **September 20-23, 2026**.

ICFMCE is an annual international conference that is dedicated to providing the platform and opportunities for researchers, scientists, and delegates from communities of different areas to exchange and share their experiences and discoveries, discuss practical issues and challenges encountered, and explore applications and solutions in the common research field of Functional Materials for Circular Economy.

The ICFMCE 2026 conference committee is excited to invite authors and scholars from all over the world to participate in this significant conference, to enhance our knowledge and create new knowledge to help promote the advances and changes of joint academic research.

CFP Topics

We invite submissions on a wide range of research topics, spanning both theoretical and systems research. The topics of interest include, but are not limited to:

- Advanced materials processing
- Advances in computational & numerical methods
- Biochemical Engineering
- Catalysis and reaction engineering
- Chemical reaction engineering
- Crystallization
- Delivery of the final product
- Distillation, absorption and extraction
- Economics and Business Management
- Food engineering
- Food engineering
- Green organic synthesis routes
- Interfacial and colloidal phenomena
- Multiphase flows
- Multiscale modeling
- Nanomaterials
- Particulate systems
- Process control and operations
- Process Safety Management
- Reaction engineering and catalysis
- Separation engineering
- Sustainable and clean technologies
- Thermodynamics
- Water chemistry, desalination
