

ICVISIP 2026

2026年第十届 视觉、图像与信号处理国际会议

2026 10th International Conference on Vision, Image and Signal Processing

Welcome to ICVISIP 2026

It is with great pleasure that we invite you to the 2026 10th International Conference on Vision, Image and Signal Processing (ICVISIP 2026), which is organized by Hainan University, and is scheduled to take place from December 11-13, 2026, in Haikou, China.

ICVISIP is committed to delivering a platform for collaboration and discovery, with the aim of driving progress in image, vision, and signal processing—key technologies that are enhancing our understanding of the world and propelling advancements in artificial intelligence, machine learning, and a multitude of other applications that are transforming industries and improving lives.

We warmly invite your contributions and eagerly anticipate the opportunity to meet with you in person at ICVISIP 2026.

Organizing Committee

General Chair

Xianpeng Wang, Hainan University, China

Conference Chairs

Yang Yue, Xi'an Jiaotong University, China

Fangqing Wen, China Three Gorges University, China

General Co-chair

Ting Su, Hainan University, China

Program Chairs

Zhenjia Chen, Hainan University, China

Hao Tang, Hainan University, China

Han Wang, Yichun University, China

Publication Chairs

Guilu Wu, Hainan University, China

Mingcheng Fu, Hainan University, China

Local Chairs

Yuanyuan Wu, Hainan University, China

Kun Zhang, Hainan Normal University, China

Jinmei Shi, Hainan Vocational University of Science and Technology, China

Jicheng Kan, Hainan Vocational University of Science and Technology, China

Publicity Chairs

Yuehao Guo, Hainan University, China

Bo Xu, Hainan University, China

Finance Chairs

Yongqin Yang, Hainan University, China

Xiang Lan, Hainan University, China

Award Chair

Jilin Zhu, Hainan University, China

Program Committee

Kang Su, Hainan University, China

Kuo Chi, Hainan University, China

Gan Luan, Hainan University, China

Yan Zhao, Hainan University, China

Hanyang Shi, Hainan University, China

Keynote Speakers

Prof. Mingyi He

Northwestern Polytechnical University, China

Prof. Guangzhi Wang

Tsinghua University, China

Prof. Tae-Kyun (T-K) Kim

KAIST AGI Research Institute, South Korea

Prof. Sung-Bae Cho

Yonsei University, South Korea

Topics of Interest

For more information, please visit: www.icvisip.org/cfp.html

Computer Vision

- 3D Computer Vision
- Adversarial Attack and Defense

Image Processing

- Synthesis, Rendering, & Visualization
- Computational Imaging

Signal Processing

- Applied Signal Processing Systems
- Audio & Acoustic Signal Processing

Multimodal AI

- Multimodal Data Modeling
- Multimodal Data Fusion

Applications

- Augmented and Mixed Reality
- Autonomous Driving

- Deep Learning Architectures and Techniques
- Document Analysis and Understanding

- Restoration & Enhancement
- Image & Video Quality Models

- Biomedical Imaging & Signal Processing
- Compressive Sensing, Sparse Modeling

- Cross/Multi-modal Learning
- Multimodal Big Data Analytics and Visualization

- Low-Altitude Visual Perception and Understanding
- Mental Health and Cognitive Stimulation

- Embodied Vision
- Low-level Vision

- AI-Powered Image & Video Processing
- Medical Image Processing

- Machine Learning and Generative AI
- Sensor Array & Multichannel SP

- Multimodal Perception and Interaction
- Multimodal AI in Robotics

- Vision, Language, and Reasoning
- Vision Applications and Systems

Tracks

For more information, please visit: www.icvisip.org/tracks.html

Track I : The Application of Artificial Intelligence in the Field of Meteorology

Track IV : Signal Analysis, Feature Extraction and Intelligent Recognition

Track VII: Deep Models for Aerial Robotics: Perception, Reasoning, and Edge Computing

Track X : Weak and Small Object Recognition: Multimodal Perception, Robust Detection, and Edge Intelligence

Track XIII: Advances and Frontier Application in Intelligent Remote Sensing Interpretation

Track II : Advances in Hyperspectral Data Analysis and Processing

Track V : Biologically Inspired Vision and Image Processing

Track VIII : Intelligent MIMO Radar Sensing: Target Detection, Imaging, and Multimodal Recognition

Track XI : Vision-Driven Digital Twins: 3D/4D Reconstruction, Multimodal Data Fusion, and Physical-Virtual Synchronization

Track III: Multi-Modal Perception and Affective Computing

Track VI : Advances in Low-Altitude and Maritime Target Detection and Environmental Sensing

Track IX: Image Recognition Technology and Intelligent Driving

Track XII: Medical Image and Signal Processing

Publication

Registered and presented full papers will be included in the ICVISIP 2026 digital conference proceedings, which will be published by SPIE and submitted to major citation databases (including, but not limited to Ei Compendex and Scopus) for review and indexing.

SPIE  **Scopus**

Key Dates (The Third Round)

Abstract Submission Due: October 5, 2026

Full Paper Submission Due: October 19, 2026

Author Notification Due: November 8, 2026

Registration Due: November 22, 2026

Camera-ready Submission Due: November 22, 2026

Main Conference: December 11-13, 2026

Submission

- Manuscripts submitted to the conference should be written in English only.
- Manuscripts submitted to the conference should follow the template provided.
- Manuscripts can be submitted in Doc, Docx and PDF format.
- Oral or Poster presentations should be nominated while submitting an abstract.
- The ordinary length is suggested no less than 5 pages, including all figures, tables, references, and appendices. If the paper exceeds 8 pages, the additional pages will be charged at the time of registration.

For paper template, please visit: www.icvisip.org/sub.html
