

Welcome to JCRAI 2026

We invite you to join the 2026 6th International Joint Conference on Robotics and Artificial Intelligence (JCRAI 2026), which will take place in Beijing, China during November 6-8, 2026. This conference is a forum for researchers, scientists, engineers and industry professionals to share the latest advances in the field of Robotics and Artificial Intelligence.

Attending this conference is an ideal way to stay up-to-date with the latest developments in this rapidly evolving field. Leading experts from around the world will be presenting their latest research and valuable experiences through superb speeches, presentations, and intellectual dialogues. We look forward to seeing you in Beijing for JCRAI 2026!

Conference Committee

International Advisory Committee

Peng Shi, The University of Adelaide, Australia
Mengchu Zhou, New Jersey Institute of Technology, USA

General Chair

Dazi Li, Beijing University of Chemical Technology, China

General Co-Chair

Youqing Wang, Beijing University of Chemical Technology, China

Publication Chairs

José Barata Oliveira, NOVA University of Lisbon, Portugal
Jinglin Zhou, Beijing University of Chemical Technology, China
Ning Liu, Beijing University of Chemical Technology, China

Publicity Chairs

Yanlin He, Beijing University of Chemical Technology, China
Lu Li, Beijing Information Science and Technology University, China

Award Chairs

Zhengcai Cao, Beijing University of Chemical Technology, China
Yu Cui, Beijing University of Chemical Technology, China

Finance Chairs

Junru Wang, Beijing Information Science and Technology University, China
Xi Wang, Beijing University of Chemical Technology, China

Local Chairs

Tao Zhang, Beijing Information Science and Technology University, China
He Feng, Beijing University of Chemical Technology, China

Program Chairs

Junfang Fan, Beijing Information Science and Technology University, China
Stefano Mariani, Politecnico di Milano, Italy
Fan Zhang, Beijing University of Chemical Technology, China

Program Committee

Liya Dou, Beijing University of Chemical Technology, China
Xiao Wang, Beijing University of Chemical Technology, China
Longchuan Li, Beijing University of Chemical Technology, China
Jiyuan Zhao, Beijing Information Science and Technology University, China
Xingjian Fu, Beijing Information Science and Technology University, China
Di Yu, Beijing Information Science and Technology University, China

Important Dates

The First Round

- Abstract Submission Due: June 15, 2026
- Full Paper Submission Due: June 30, 2026
- Registration Due: September 18, 2026

Call For Papers

The topics of interest include, but are not limited to:

ARTIFICIAL INTELLIGENCE

- Agents and Multi-Agent Systems
- Expert Systems
- Fuzzy Logic

AMBIENT INTELLIGENCE

- Ambient Assisted Living
- Data Science
- Intelligent Driving

ROBOTICS

- Assistive Robots
- Autonomous Robots
- Creative and Entertaining Robots

MACHINE VISION

- Augmented Reality
- Bioinformatics
- Human Computer Interaction

MACHINE LEARNING

- Ant colony optimization
- Bayesian networks
- Decision Making

MACHINE LEARNING

- Big data analytics for security
- Biometrics
- Computer Forensics

Submission Guidelines

We are pleased to accept original and unpublished paper submissions from professors, doctors, PhD. students, teachers, engineers, industry researchers, and other academic experts for JCRAI 2026.

Online Submission System:

<https://cmt3.research.microsoft.com/JCRAI2026>

Publication Information

Registered and presented full papers will be included in the JCRAI 2026 digital conference proceedings and submitted to major citation databases (including, but not limited to Ei Compendex and Scopus) for review and indexing.

Special Session

Special Session I : Deep Learning-Driven Machine Vision Technology and Applications

Special Session II : AI-Empowered Change Control for Product Supply Chain Systems Subject to Security Threats

Special Session III: Vision-Driven Embodied Intelligence for Robot Navigation and Manipulation

Special Session IV: Research on Key Technologies of Humanoid Robotics

Special Session V: AI Methodologies and Applications in Pattern Recognition and Machine Learning
